*Listed on the National Register of Historic Places

+Designated Historic Landmark by the City of New Orleans

The Preservation Resource Center's façade easement program began in 1980 with a small collection of both residential and commercial donations. In 1996, PRC accepted stewardship responsibility for 27 façade preservation easements held by the Historic Faubourg St. Mary Corporation (HSFM) into its preservation easements program, bringing the PRC's total inventory to 90 easements. The HSFM was founded as a private, non-profit corporation in 1976 to provide incentives for the renovation and reuse of historic buildings in New Orleans' Central Business District (CBD). HSFM Corporation was established on the recommendation of the Growth Management Program, a master plan for New Orleans' Central Business District revitalization which was commissioned by the City of New Orleans and the Central Area Council of the Chamber of Commerce. Since that time, PRC's easements program has grown to encompass more than 120 residential and commercial structures in New Orleans, Baton Rouge, and surrounding parishes.

The preservation easement program helps the Preservation Resource Center accomplish its stated mission to promote the preservation, restoration, and revitalization of New Orleans' historic architecture and neighborhoods by working directly with property owners to ensure the protection of the city's historic resources in perpetuity.
